

Hello, Summer Class of 2022,

My name is Jessenia Reyes, and my scholarly project partner's name is Sabine Cadet. We are second-year Nurse anesthesia students enrolled in the Doctorates of Nurse Anesthesia Practice program at AdventHealth University.

We are sending you this email because you have chosen to participate in “The Effect of Airway Management Education on Knowledge, Skill, and Confidence Levels” scholarly project. This email is a follow-up to remind you to complete the required modules in the Canvas course titled “Airway Management and Airway Equipment” before the airway simulation lab starting on May 20, 2022.

We truly appreciate your participation in this scholarly project. We would like you to know that your participation in the assessments will be voluntary. It is important to note that this project WILL NOT affect your school grade in any manner.

Thank you,
Jessenia Reyes, SRNA and Sabine Cadet, SRNA
